Contents Volume 77

Vol. 77. No. 1

Supply chain coordination with uncertain just-in-time delivery
K. Zimmer 1

Economic design of $\bar{x}$-control charts with Weibull in-control times when there are multiple assignable causes
Y.-S. Chen and Y.-M. Yang 17

Determining load patterns for the delivery of assembly components under JIT systems
K.H. Kim and J.-B. Kim 25

Hierarchical simulation of complex production systems by coupling of models
G. Zülch, U. Jonsson and J. Fischer 39

On the relaxation of multi-level dynamic lot-sizing models
J. Vörös 53

Resource allocation in a few industries: Determinants and trends
E. Segelod 63

New heuristics to minimize total completion time in *m*-machine flowshops
A. Allahverdi and T. Aldowaisan 71

Note on: Economic production quantity model for items with imperfect quality – a practical approach
S.K. Goyal and L.E. Cárdenas-Barrón 85

Note on: An optimal batch size for a production system operating under periodic delivery policy
R.A. Sarker 89

Note: Reply to R.A. Sarker
S.K. Goyal 91

Diary of Events 93

Vol. 77. No. 2

Coordinating pricing and inventory replenishment policies for one wholesaler and one or more geographically dispersed retailers
T. Boyacı and G. Gallego 95

PII: S0925-5273(02)00162-7

Incorporating transportation costs into inventory replenishment decisions
S.R. Swenseth and M.R. Godfrey 113

Determining manufacturing batch sizes for a lumpy delivery system with trend demand
A. Diponegoro and B.R. Sarker 131

A possibilistic decision support system for imprecise mathematical programming problems
H.A. Jensen and S. Maturana 145

A list-based threshold accepting method for job shop scheduling problems
C.D. Tarantilis and C.T. Kiranoudis 159

A comparison of different methods for estimating the average inventory level in a (*Q,R*) system with backorders
A.H.-L. Lau and H.-S. Lau 173

Diary of Events 187

Vol. 77, No. 3

Preface
Igls 2000
R.W. Grubbström and H.H. Hinterhuber 189

The technology dimension of strategic leadership: The leadership challenge for production economists
H.H. Hinterhuber and S.A. Friedrich 191

Team roles in business process re-engineering
M. Launonen and P. Kess 205

Success factors for cooperative ventures in innovation and production systems
C. Marxt and P. Link 219

Performance simulation of supply chain designs
F. Persson and J. Olhager 231

Make vs. buy decisions: A process incorporating multi-attribute decision-making
K.W. Platts, D.R. Probert and L. Cáñez 247

Integrated design and production of multi-storey timber frame houses – production effects caused by customer-oriented design
L. Stehn and M. Bergström 259

The contribution of technology selection to core competencies
M. Torkkeli and M. Tuominen 271

Performance improvement theory
J. Vits and L. Gelders 285

A framework for maintenance concept development
G. Waeyenbergh and L. Pintelon 299

Diary of Events 315
